Excel 2007 Training on ULearn

1. In the catalog search type Excel 2007, then click on the GO button.
2. Once the search is complete navigate through the different pages until you find a desired training topic. Topics that are computer based will be noted with CBL. Topics that are instructor led will be noted with ITL.

3. Once you find a desired training topic, click on the launch button if the training is a CBL or on the register button if the training is ITL.
