Steps to Create a Basic Consent

- Open iMedConsent by typing `unimed` in your web browser. Enter your user name and password.
- Click Patient Search to select patient.
- Find procedure(s) in `Search`, `Browse` or `Favorites Tab`.
- Select procedure(s) and click Begin Consent.
- Select Facility. Confirm patient is correct.
- Complete red required fields on Consent Input Tab.
- Click `Document Tab` to review consent.
- Click Save to store in `Patient Tab`. You may retrieve and complete later.
- Obtain signatures on `Sign Tab` with e-pad.
- Once all required fields and signatures are complete, click `Save` to send to Cane Care.

Favorites can be created by selecting a procedure on Search or Browse Tab and clicking `Add to Favorites`. Access later under ` Favorites Tab`
